## 4-State's RPM consulting services can help you...

### **Simplify Training**

Betco has created a simple, easy to use training library designed to address issues specific to the unique needs of each facility. This state-of-the-art training library includes video, facilitators guide, interactive CD for self-study and student workbooks. Your staff will enjoy going through the training series and can receive CEU accreditation from the International Executive Housekeeping Association. Check out our sample online exam at [betco.com](http://betco.com).

### **Maintain Building Appearance**

Part of any successful Quality Assurance plan is implementing an Inspection process. We'll collect data and establish a benchmark and create performance goals to help you improve or maintain building appearance. With the Betco Inspector Software program we provide you the tools and the resources to implement such a plan.
